

## **PTC Work Programme 2016-2019, including progress**

### **Introduction**

The Work Programme of the Permanent Technical Committee follows the WCO Strategic Plan and supports implementation of its goals and activities. It will be regularly updated to reflect the decisions taken by the Committee and the governing bodies of the WCO and to reflect the progress made.

### **Work Programme 2016-2019**

The Work Programme aims to consolidate all the topics the Committee will be dealing with in a three-year period. This Work Programme refers to the three financial years: 2016/2017, 2017/2018 and 2018/2019.

The Work Programme should be considered as a living document and will be updated to reflect the changes taking place in the Customs environment and to reflect the new demands of the Membership or decisions of the Policy Commission and Council. Topics which are being proposed for inclusion in the Work Programme, would first need to be discussed in a PTC meeting. In accordance with the PTC Agenda setting guidelines, two or more Members (and possibly Observer(s)) would be expected to put forward a document for discussion in order to allow the PTC to have a clear understanding of the topic and the reasons for its inclusion in the Work Programme.

The Programme largely supports achieving Strategic Goals 1 and 5 of the WCO Strategic Plan 2016/2017-2018/2019 and contributes to the implementation of the following Strategic activities falling under the two goals:

**Strategic Goal 1** – Promote the security and facilitation of international trade, including simplification and harmonization of Customs procedures = Economic Competitiveness Package:

- **Strategic Activity 1.1:** Develop, manage and promote conventions, guidelines, standards and tools on trade security and facilitation;
- **Strategic Activity 1.2:** Support effective implementation of WTO TFA provisions through use of WCO instruments, tools and assistance
- **Strategic Activity 1.3:** Promote cooperation with other border agencies to enhance border efficiency and effectiveness;
- **Strategic Activity 1.4:** Enhance partnership with private sector.

**Strategic Goal 5** – Promote Digital Customs to support, in particular, Coordinated Border Management and information exchange between all stakeholders:

- **Strategic Activity 5.1:** Digital Customs: Provide a framework to consolidate the development, promotion and deployment of the WCO's Information Technology (IT)-related standards, instruments, tools, guidelines and systems;
- **Strategic Activity 5.2:** Implement Globally Networked Customs (GNC);
- **Strategic Activity 5.3:** Use of IT in support of Coordinated Border Management;
- **Strategic Activity 5.4:** Develop, promote and manage WCO instruments and tools that provide the legal basis for technology enabled reforms.

For each of the Strategic Activities, the PTC Work Programme 2016-2019 provides a list of topics and related tasks to be carried out by the PTC.

1. PTC tasks to support Strategic Activity 1.1: Develop, manage and promote conventions, guidelines, standards and tools on trade security and facilitation

*“The WCO will continue to work on developing international standards for Customs procedures. It also promotes the Revised Kyoto Convention. The WCO will manage, further develop and promote the Economic Competitiveness Package, including the SAFE Framework of Standards, the Time Release Study, and other instruments and tools to achieve trade security and facilitation.”*

Other responsible bodies not mentioned here could, for example, be the Enforcement Committee (i.e. in the case of Coordinated Border Management), but as it does not report to the PTC, it is not included in this table either.
