- **BLOCKCHAIN** changing the face of ....
  - Processes
  - People
  - Platform
  - Payment *

*However none of this will mean anything without transportation.*

- **HYPERLOOP ONE™**
  - Significantly reducing travel time - current test 387 kmph; predicted 1,000 kmph
  - Cost reduction (costs estimated to run 50% higher than truck transit, but five-times cheaper than air freight)

• Political Will and Support
• Full commitment and implementation support from all stakeholders – private and public
• Compliance with Rules and Regulations by Stakeholders
• Total integration of all systems (soft and hard) involved in the international trade supply chain
• Change Management
• Continuous capacity building and skills training
• Continuous Monitoring and Evaluation
THANK YOU!
