U.S. Customs and Border Protection’s Response to COVID
24 March 2020

Legislative Powers (i.e. on matters such as imposed quarantine):

Arrival Restrictions and Quarantine Arrangements:

The CDC is working with state and local public health partners to implement after-travel health precautions. Depending on a person’s travel history, that person could be asked to stay home for a period of 14 days from the time the person left an area with widespread or ongoing community spread.

Information on travellers returning from high-risk countries can be found on the CDC website (https://www.cdc.gov/coronavirus/2019-ncov/travelers/after-travel-precautions.html).

In Country Visa Issues:
Inquiries received from non-immigrant travellers in-country whose visas are nearing expiration are referred to U.S. Citizenship and Immigration Services.

Public Health Advice:

Industry Engagement:
CBP continues to engage with CDC and Industry Stakeholders in order to continue the flow of legitimate trade and travel into and out of the United States.

Planning:
CBP has national pandemic plans and continuity of operations plans in place. CBP has appropriate PPE at all ports, stations, air branches, and at all operational locations globally. CBP has a Safety and Occupational Health Specialist located in every Field Office and Sector to assist operational components complete the mission of CBP while ensuring that CBP employees remain safe. CBP has activated its Emergency Operations Center to assist in the execution of the CBP response to the COVID-19 outbreak. This 24/7 activity integrates representatives from all offices to manage emergency response assets and coordinate information and resources.
