

Negotiating Group on Trade Facilitation

DRAFT HONG KONG REPORT

1. Since its establishment on 12 October 2004, the Negotiating Group on Trade Facilitation met eleven times to carry out work under the mandate contained in Annex D of the General Council Decision in WT/L/579. The negotiations are benefiting from the fact that the mandate allows for the central development dimension of the Doha negotiations to be addressed directly through the widely acknowledged benefits of trade facilitation reforms for all WTO Members, the enhancement of trade facilitation capacity in developing countries and LDCs, and provisions on special and differential treatment (S&DT) that provide flexibility. Based on the Group's Work Plan (TN/TF/1), Members contributed to the agreed agenda of the Group, tabling 60 written submissions sponsored by more than 100 delegations. Members appreciate the transparent and inclusive manner in which the negotiations are being conducted.

2. Good progress has been made in all areas covered by the mandate, through both verbal and written contributions by Members. A considerable part of the Negotiating Group's meetings has been spent on addressing the negotiating objective of improving and clarifying relevant aspects of GATT Articles V, VIII and X, on which about 40 written submissions have been tabled by Members representing the full spectrum of the WTO's Membership. Through discussions on these submissions and related questions and answers (JOB(05)/222), Members have advanced their understanding of the measures in question and are building common ground on many aspects of this part of the negotiating mandate. Many of these submissions also covered the negotiating objective of enhancing technical assistance and support for capacity building on trade facilitation, as well as the practical application of the principle of S&DT. Two other valuable submissions dedicated to these issues have been discussed (TN/TF/W/33 and TN/TF/W/56). Advances have also been made on the objective of arriving at provisions for effective cooperation between customs or any other appropriate authorities on trade facilitation and customs compliance issues, where two written proposals have been discussed (TN/TF/W/57 and TN/TF/W/68). Members have also made valuable contributions on the identification of trade facilitation needs and priorities, development aspects, cost implications and inter-agency cooperation.

3. Valuable input has been provided by a number of Members in the form of national experience papers describing national trade facilitation reform processes. In appreciation of the value to developing countries and LDCs of this aspect of the negotiations, the Negotiating Group recommends that Members be encouraged to continue this information sharing exercise.

4. Building on the progress made in the negotiations so far, and with a view to developing a set of multilateral commitments on all elements of the mandate, the Negotiating Group recommends that it continue to intensify its negotiations on the basis of Members' proposals, as reflected currently in document TN/TF/W/43/Rev.4 as well as new proposals that are tabled. Without prejudice to individual Member's positions on individual proposals contained in that document, a list of elements drawn from it is provided below to facilitate further negotiations. In carrying out this work and in tabling further proposals, Members must be mindful of the overall deadline for finishing the negotiations and the resulting need to move into focussed drafting mode early enough in 2006 so as to allow for a timely conclusion of text-based negotiations on all aspects of the mandate.

5. Work needs to continue and broaden on the process of identifying individual Member's trade facilitation needs and priorities, and the cost implications of possible measures. The Negotiating Group recommends that relevant international organizations be invited to continue to assist Members in this process, recognizing the important contributions being made by them already, and be encouraged to continue and intensify their work more generally in support of the negotiations.

6. In light of the vital importance of technical assistance and capacity building to allow developing countries and LDCs to fully participate in and benefit from the negotiations, the Negotiating Group recommends that the commitments in Annex D's mandate in this area be reaffirmed, reinforced and made operational. To bring the negotiations to a successful conclusion, special attention needs to be paid to support for technical assistance and capacity building that will allow developing countries and LDCs to participate effectively in the negotiations, and to technical assistance and capacity building to implement the results of the negotiations that is precise, effective and operational, and reflects the trade facilitation needs and priorities of developing countries and LDCs. Recognizing the significant amount of valuable assistance already being provided in this area, the Negotiating Group recommends that Members, in particular developed ones, continue to intensify their support in a comprehensive manner and on a long-term and sustainable basis, backed by secure funding.

7. The Negotiating Group also recommends that it deepen and intensify its negotiations on the issue of S&DT, with a view to arriving at S&DT provisions that are precise, effective and operational and that allow for necessary flexibility in implementing the results of the negotiations. Reaffirming the negotiating mandate in this regard, especially paragraphs 2 and 3 of Annex D, the Negotiating Group recommends that further negotiations on S&DT build on input presented by Members in the context of measures related to GATT Articles V, VIII and X and in their proposals of a cross-cutting nature on S&DT.
