Interconnectivity must be based on a firm legal basis.

Leadership is paramount in translating a legal basis into a tangible outcome. Leadership must undertake a strategic approach for ICT planning, and navigate the complexities of building a technologically advanced and modern regulatory system.

Leadership

• Leadership is paramount in translating a legal basis, into a tangible outcome.
• Leadership must undertake a strategic approach for ICT planning, and navigate the complexities of building a technologically advanced and modern regulatory system.

Member Administrations should be legally-enabled reform is required to enhance interconnectivity with stakeholders.

Legal Basis

• Interconnectivity must be based on a firm legal basis.
• Member Administrations should be legally-enabled reforms are required to enhance interconnectivity with stakeholders.

Modernization & Reform

• Information & Communications Technology is a key enabler for cross-border regulatory modernization & reform.
• Member Administrations must understand how ICT supports cross-border regulatory processes so that they can deploy technology effectively.

Information & Communications Technology provides new possibilities for Cross-Border Regulatory Agencies to engage the public, and communicate with each other.

Protection of Society

• Cross-Border Regulatory Agencies are responsible for protecting society from the harmful effects of illicit trade.
• ICT enhances research & sense-making capabilities to identify emerging threats & support risk management

Connectivity through ICT provides greater opportunities for Cross-Border Regulatory Agencies to work together.

Coordinated Border Management

• Connectivity through ICT provides greater opportunities for Cross-Border Regulatory Agencies to work together.
• Technical harmonization & standardization shall be pursued to provide Member Administrations with an effective basis to pursue seamless, interoperable exchange.

Interoperability & Exchange

Regional Integration

Communication

• Information & Communications Technology provides new possibilities for Cross-Border Regulatory Agencies to engage the public, and communicate with each other.
• Secured communication platforms are necessary for enforcement agencies to coordinate enforcement actions.
• ICT should also support Member Administrations in pursuing closer communication with the trading community to foster

Draft 1.0
DIGITAL.CUSTOMS

Customs plays a crucial role in international trade and logistics. It performs a key role in trade facilitation and trade regulation, contributing to economic growth and development.

As a revenue collection agency, it also plays an important role in domestic resource mobilization that is essential for national development goals, including sustainable development and improving social justice.

Through increased use of information & communications technology, Customs can improve the delivery of its objections, to achieve more efficient and effective regulatory outcomes.
DIGITAL.CUSTOMS aims to provide a:

- **Cohesive** reference to allow members to holistically understand all of the ICT related standards, tools and guidelines, and how it relates to the cross-border regulatory domain.

- **Comprehensible** thematic approach to the management and development of ICT tools, so that it is easily understood by users. Emphasis would be placed on the developments of guidelines that focus on implementation experiences and technical know-how within each thematic domain area, so that WCO member administrations will be able to consume the knowledge efficiently.

- **Scalable** conceptual framework to enable new tools to be developed in through a cross-functional approach that encompasses the entire border regulatory domain. New tools can be incorporated under each theme as appropriate, and new themes can also be included based on members’ determination of future needs.
LEGAL BASIS

Interconnectivity must be based on a firm legal basis.

Member Administrations should be Legally-enabled reforms are required to enhance interconnectivity with stakeholders.
