

Electronic payment system (Chile)

The electronic payment system allows to Customs Broker or importers make payment of customs duties by accessing the website of the Treasury. On the website of the Treasury Service, is possible to choose the Commercial Bank or financial institution and the account you want to pay and make electronic payments by selecting the relevant documents.

Once operation performed, Commercial Bank reports online at Treasury Agency, information that will be transferred, also by online, the Customs Service. To work in this mode of payment, importers or Customs Broker, must apply for access to Treasury Service, in accordance with standards established by this Agency.

In order to make payment electronically, the payment document must be within expiration date. The payment system operates in mode 24x7
