ANNEX

Basic principles of programmes for binding pre-entry classification information

1 Any person may make a request in writing to a duly designated authority for binding information on the classification of goods in the HS-based nomenclature in respect of an actually envisaged import or export operation. The request shall contain, in particular, a full description of the goods as well as any necessary additional details to enable their identification (brochures, samples, etc.) so that the authority is able to classify them.
2. The information shall be communicated in writing to the applicant as soon as possible.

3. The information thus communicated is binding, in accordance with the terms set out therein, on the Customs authorities as against the holder of such information in respect of the tariff classification of goods in the country or Customs territory to which the issuing authority belongs, for at least one year from the date of issue, subject to paragraph 4 or 5.

4. The information may be annulled if it was given on the basis of incorrect or incomplete details provided by the applicant.

5. The information ceases to be valid (i) where it becomes incompatible with new tariff measures or judicial decisions taken by the national authority or by the Customs or Economic Union concerned or (ii) where the holder of such information is notified in writing of its withdrawal, revocation or amendment because of, for example, further details that have been obtained and which affect such information.

6. A period of grace may be provided under this programme with respect to paragraph 5.
