Rules of Origin Expert

1. INTRODUCTION

The World Customs Organization (WCO) is an independent intergovernmental body, established in 1952 as the Customs Co-operation Council (CCC), whose mission is to enhance the effectiveness and efficiency of Customs services across the globe. The WCO represents 185 Customs administrations that collectively process approximately 98% of world trade. As the global centre of Customs expertise, the WCO is the only international organization with competence in Customs matters.

As a forum for dialogue and exchange of experiences between national Customs delegates, the WCO offers its Members a range of Conventions and other international instruments, as well as technical assistance and training services provided either directly by the Secretariat, or with its participation. The Secretariat also actively supports its Members in their endeavours to modernize and build capacity within their national Customs administrations.
