CSC Cloud Strategy in the New Trade Ecosphere

Trusted Information Sharing

Cloud will be the fabric of integration and delivery

Cloud apps enable trade anytime, anywhere

The Future as a Service — A Portfolio of Trusted Cloud Solutions for the trade community!

Cloud as Business Platform	<ul style="list-style-type: none">• Applications for “informed compliance”• Shared data and lookouts• Support third parties’ integrated services• Multi-support of third parties’ Cloud Federation
SaaS	<ul style="list-style-type: none">• Cloud Office Applications• Enterprise Resource Planning – Information integration trading partners• “App Store” for trade enterprises— social media for modern workspace
Transparency and Compliance	<ul style="list-style-type: none">• Transparency as a Service (TaaS) — broker for multi-cloud compliance• Identity and Access as a Service — IAM
PaaS	<ul style="list-style-type: none">• CloudLab• Multi-platform marketplace — CSC CloudBuild• Development, Test, or Production Platforms as a service – on demand
IaaS	<ul style="list-style-type: none">• Cross-cloud federation and orchestration• Multi-core virtualization support• Multi-tier virtual storage support

How Is CSC's Trusted Cloud Service Differentiated from Others?

CSC offers consistent cloud models to move workloads between on and off premises and private, public, community, and hybrid clouds built on the most innovative cloud fabric

Management options — from self-managed to a fully managed option

CSC's Cloud is open, secure, and workload driven

Production-class clouds handle mission critical workloads as easily as they handle simple development and test environments

The only private, on premises cloud billed as a service — CSC BizCloud™

Service level agreements with full monetary recourse

The only multi-platform PaaS provider with full capabilities for building apps and migrating workloads to the cloud

Right cloud at the right time for the right workload

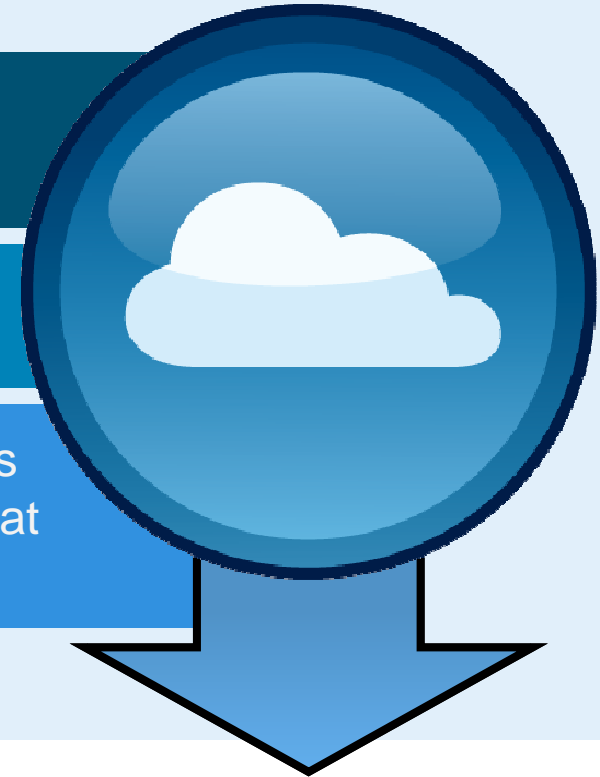

A Cloud That...

harmonizes the **security** for transactions and data with...

comprehensive **transparency** of control and result such that...

it conveys evidence-based **confidence** that systems within its environment operate as advertised, and that no unadvertised functions are occurring...

Is A Trusted Cloud

Services rendered via a Trusted Cloud are **“Trusted Cloud Services”**

The generation of new enterprise value with Trusted Cloud Services is an application of Digital Trust
