

# Cloud Computing IT and Supply Chain Security

- Trade Facilitation vs. Customs Requirements & Security
- Need for Simplified Processes, Validated Information, Trusted Operators
- Harmonization, Standardization (e.g. data model, UCR, mutual recognition, +)
- Information Sharing Required (Customs to Customs, Customs to Other Agency)
- Global Demonstration Project Proving This Approach

## **Mark R. Miller**

Chief Executive, CONCEPTIVITY

Chairman, European Organisation for Security Supply Chain Security WG
