As an integral part of the WCO's Leadership and Management Development Programme, the Fellowship programme aims to invest in middle managers with high potential and develop their abilities, skills and knowledge to ensure that they can actively participate in their **Administration's reform and modernization processes** and ongoing organizational development initiatives under the WCO Capacity Building programme.

In this regard, I invite you to nominate **a maximum of 2 candidates** who meet the following conditions:

- A thorough knowledge of one of the technical areas listed in the annex and the **capacity to articulate practical recommendations for your Administration's modernization initiatives in this field;**
- **Proficiency in both written and spoken French.** One of the selection criteria might involve a telephone conversation between the candidate and the WCO officer in charge of the Programme;
- **A mid-level manager with at least four years of service in Customs** and the assessed potential for further advancement; and
- **Maximum age of 45 years** and in **good health.**

The Secretariat will only be able to accept a limited number of candidates subject to the resources provided by the various donors for this Fellowship Programme. In order to promote gender balance, if you are nominating two candidates, you are advised to nominate one female candidate and one male candidate. **Preference will be given to the candidates who meet these criteria.**

The selected candidates will be required to produce a modernization project based on the analysis of their national situation and the inventory of the operational problems that their Administration faces and to put forward recommendations to solve them. This modernization project, which will be supervised online by a specialized WCO tutor, shall then be presented to the Director General and may be used by WCO experts who carry out missions within the Administration. *Please note that applications for the WCO Fellowship Programme proposing a research topic that was already recently developed by a previous Fellow selected from your Administration will not be considered for selection.* To be considered valid, the project proposal must make precise reference to the WCO standard or instrument that is considered for implementation within the framework of the future modernization project.

Please find appended hereto documents setting out the administrative provisions, as well as a summary of the objectives of this Programme. Complete applications must be submitted by e-mail to helene.caux@wcoomd.org **no later than 23 May 2024** (no application will be accepted after that deadline).
