In a globalized world a secure and rapid cross-border exchange of information and intelligence is crucial for preventing and combating cross-border crimes. It is therefore vital for Customs to be able to request, obtain, and distribute sensitive information, alerts and danger notes rapidly and safely. The Regional Intelligence Liaison Office for Western Europe (RILO WE), with the support of the Global RILO Network and the WCO Secretariat, established a group on the secured WCO CENcomm platform which facilitates the exchange of urgent and sensitive Customs related information.
