

UPDATE ON WCO RECOMMENDATIONS

(Item XII (c) on the Agenda)

1. The WCO, since its establishment, has promoted various types of international instruments and tools to support its Members. It has also aimed to provide guidance on the interpretation of contents of such instruments with a view to harmonize and uniform implementation wherever possible. Amongst the most practical instruments and tools for securing the highest degree of harmonization of approaches are the WCO Recommendations. To date, the WCO has adopted more than 70 Recommendations. WCO Members, members of the United Nations and its specialized institutions, and Customs or Economic Unions may formally accept any WCO Recommendation.
2. The situation regarding acceptances of Recommendations is reported to the relevant WCO Committees on a regular basis. In March 2015 the Permanent Technical Committee (PTC) discussed possible reasons for the relatively low level of acceptance of many WCO Recommendations and in October 2015 noted progress and information on recent acceptance of WCO Recommendations by Members.
3. Since the last PTC sessions in March 2016, one Member notified the Secretary General of the WCO of its acceptance of the Recommendation concerning the use of Advance Passenger Information (API) and Passenger Name Record (PNR) for efficient and effective Customs control and the Recommendation on the Guiding Principles for Data Quality which were adopted by the WCO Council in 2015.
4. At its sessions in July 2016 the WCO Council did not adopt any Recommendations falling under the purview of the PTC.
5. The table showing the situation regarding acceptances of WCO Recommendations is updated periodically and published on the Organization's web site.
6. The PTC is invited to take note of the current situation regarding the acceptance of Recommendations, as shown in the Annex to this document.

*

* *

Situation Regarding Acceptances of WCO Recommendations

(20 September 2016)

The attached tables show the position as regards acceptances of the Recommendations concerning the Permanent Technical Committee, grouped as follows:

- A. Recommendations designed to promote co-operation between Customs administrations;
- B. Recommendations designed to secure uniformity in practices as regards duty-free admission or the repayment or remission of duties;
- C. Recommendations concerning Transport, Travel and Tourism;
- D. Recommendations concerning Information Technologies;
- E. Recommendations related to Compliance and Enforcement
- F. Other recommendations
