|----------------|--|---|-------------------------|--|---|--|---|--|-----------------|---|---|
|                | What is the priority ranking of the activity?<br>A=High<br>B=Medium<br>C=Low | Does this activity have a direct link with the main areas of the Strategic Plan?<br>Yes (Y) or No (N) | What is planned?        | What relation to the Strategic Plan in terms of processes, focus areas and organizational improvement matters? | Maintenance, updating, or development of new initiatives? | Body in charge + supporting and decision-making bodies | What are the team resources mobilized for the conduct of this activity? | What are the objectives to be attained before the task is considered as fully completed? | What timeframe? | What is the state of play regarding the implementation of the specific activity?<br>- Status of completion<br>- Brief description of the key steps already achieved<br>- Next steps | Green = Completed<br>Blue = In progress<br>Red = Postponed or not started |
| <b>EXAMPLE</b> |  |   |                         |  |   |  |   |  |                 |   |   |

<sup>1</sup> The Strategic Plan concentrates on a limited number of strategic topics for the WCO. In this column, it should be indicated whether the activity to be conducted has a direct link with at least one of the main areas covered by the Strategic Plan, simply marked by "Yes" or "No". In order to make sure that activities conducted by WCO Working Bodies are in line with the overall strategy, 100% of them should present direct link with the main areas of the Strategic Plan

<sup>2</sup> All activities listed will be funded. In the case of any tasks needing funding approval from the Finance Committee, this clarification would be included in the "Progress" column.

<sup>3</sup> Strategic Processes (SPs) : **SP1** - Develop, maintain and implement instruments; **SP2** - Foster Customs cooperation; **SP3** - Build capacity; **SP4** - Research; **SP5** - Communicate; Focus Areas (FAs) **FA1** - Focus Area 1; **FA2** - Focus Area 2; **FA3** - Focus Area 3; Organizational Capacity (ORGs) : **ORG1** - Modernization plan; **ORG2** - Funding policy.

<sup>4</sup> Work programmes will differentiate between three types of tasks: 1. "Maintenance" which refers to adjustments, clarifications or the incorporation of technical decisions related to existing instruments; 2. "Update" which refers to a deeper review of existing instruments; and 3. "Development" which refers to the drafting of new instruments and the launch of new initiatives.

<sup>5</sup> Apart from the relevant working body itself, other responsible bodies will include those reporting to or informing the relevant body, as well as the Policy Commission and Council, and any other body that has a role to play (discussion, guidance, endorsement) in the completion of a task.

<sup>6</sup> Progress update should be completed as part of the documentation for each session of working bodies. Information provided should contain the following: 1. "Status of completion" clearly stipulated with key words such as Postponed, Not started, In progress, Completed; 2. "Brief description of the key steps already achieved" which encompasses the drafting of documents, their presentation to working bodies, the feedback received from working bodies, with an indication of the timeline for each of these steps; 3. "Next steps" which provides indication on the key actions to follow towards completion of the activity.

<sup>7</sup> The completion status is a colour code indicating the state of play of the activity at the time of the working body's session. It should highlight in a simple and straightforward way where the working body stands regarding the achievement of the given activity. Three colours should be used: **green** for "Completed", **blue** for "In progress" and **red** for "Postponed or not started"
