

**ANNEX IV - A  
TABLE CORRELATING HS 2017 – HS 2022**

**Notes:**

(1) This Table was prepared based on the Correlation Tables HS 2017 - 2022, drawn up by the WCO Secretariat in accordance with instructions received from the Harmonized System Committee, for ease of reference by users. Accordingly, it has no legal status. For details of the correlations, please refer to the Correlation Tables HS 2017 - 2022.

(2) The "Necessity of technical update" column shows the necessity of technical update when all the related subheadings have, respectively, "CC (Change in Chapter)", "CTH (Change in Tariff Heading)" or "Other (when related subheadings have different origin criteria, CTSH etc.)".

When "No" is indicated in the column, that means there is no necessity for a technical update. In other words, the original origin criteria and updated origin criteria are the same. However, when the origin criteria have exclusions (i.e. except from...), there may be a need for a technical update.

"Yes" means there is a scope change that may give a need for a technical update (dependent upon the existing drafting of the relevant Rules of Origin in each agreement).

(3) The "Type" column indicates the method of update which corresponds to the tables shown in Parts 4 and 5 of the Guide. When "Table 1-1", "Table 1-2", "Table 2-1" or "Table 2-2" is indicated in the column, you can use the updated origin criteria (first column on the right) for subheading Y1 in the corresponding table as a basis for the updated origin criteria. If "Table 3", "Table 4" or "Table 5" is indicated, you can use all the updated origin criteria in the corresponding table. "Other" means the method does not correspond to any table in the Guide. For details on how to update the origin criteria, see the Guide.
